# PVBUS

## ASG-Rochade<sup>®</sup> Bus for Metastorm<sup>®</sup> ProVision<sup>®</sup>

Version 2.02

### Data Sheet

(effective August 2009)

**PVBUS** is the Bus Interface for ASG-Rochade and **Metastorm ProVision**, which enables the upload of ProVision models, which have been exported to CIF (XML) files, to the ASG-Rochade repository and the download from ASG-Rochade to ProVision CIF (XML) import files.

PVBUS parses the CIF export files of ProVision 5.0 (or higher).

PVBUS uses the **TOOLBUS<sup>™</sup>** technology, which was developed by Reischmann Informatik GmbH for the exchange of models between the ASG-Rochade repository and modeling tools, and between modeling tools themselves.

### **System Requirements:**

PVBUS requires an ASG-Rochade Client 6.2 (or higher) for Microsoft Windows 2000/XP/Vista and the corresponding Rochade API. PVBUS supports Metastorm ProVision version 5.0 (or higher).

## **Repository Information Model:**

PVBUS uses the **CIF-RIM**, which stores the ProVision Models contained in the CIF export files of Metastorm ProVision.

## **CIF-RIM Item Types:**

CIF/ACTIVITY  
CIF/ACTIVITY-CORE  
CIF/ADHERENCE
