TOOLBUS Interface for Corporate Modeler and IBM Rational Rose

Version 3.06

Data Sheet

(effective January 2010)

The unidirectional TOOLBUS Interface for Corporate Modeler and IBM Rational Rose enables the migration of UML Class Models from Rational Rose to UML Class Models (using the UML Template) and Entity Models for Corporate Modeler.

All properties and textual documentation of UML objects from Rational Rose is migrated to Corporate Modeler, and the layout of the UML Class Diagrams is maintained in the UML Class Diagrams and Entity Diagrams in Corporate Modeler.

Interface Technology:

The TOOLBUS Interface for Corporate Modeler and Rational Rose uses the Rose Extensibility Interface (REI) for reading Rose models (MDL files) directly, and it generates XML import files for Corporate Modeler.

Platform:

The TOOLBUS Interface for Corporate Modeler and Rational Rose requires Windows 2000/XP/Vista/7. It supports Corporate Modeler 9.x, 10.x, 2008.1, 2009.1 and 2009.2, and IBM Rational Rose versions 98i, 2000, 2000e, 2001, 2001A, 2002 and 2003.
