TOOLBUS: ARIS XML File LDM Importer for InfoSphere Data Architect

Version 8.9

Data Sheet

(effective January 2010)

The TOOLBUS™: ARIS® XML File LDM Importer for IBM® InfoSphere® Data Architect (formerly Rational® Data Architect) enables the import of

- ◆ IE Data Models (Information Engineering Data Models),
- ◆ eERMs (Extended Entity Relationship Models),
- ◆ SAP-SERMs, and
- ◆ Attribute Allocation Diagrams

from ARIS Business Architect, ARIS IT Architect and the ARIS Toolset into Logical Data Models (LDM files) in InfoSphere Data Architect.

The layout of the Entity-Relationship Diagrams from ARIS is maintained in the LDM Diagrams generated for InfoSphere Data Architect.

Interface Technology: The ARIS XML File LDM Importer for InfoSphere Data Architect reads XML (AML) export files from ARIS Business Architect, ARIS IT Architect or the ARIS Toolset, and it uses the Eclipse Modeling Framework (EMF) to import Logical Data Models into InfoSphere Data Architect.

Platform: The ARIS XML File LDM Importer for InfoSphere Data Architect supports IBM InfoSphere Data Architect 7.5, and the ARIS Toolset and ARIS Business Architect versions 7.0 and 7.1.

Trademarks:

ARIS is a registered trademark of IDS Scheer AG.

IBM, InfoSphere and Rational are a registered trademark of International Business Machines Corporation in the United States, other countries, or both.

TOOLBUS is a trademark or registered trademark of Reischmann Informatik GmbH in the United States, other countries, or both.
