## **Data Sheet**

(effective July 2009)

The TOOLBUS: PowerDesigner PDM Importer for Rational Data Architect DBM enables the import of Physical Data Models from PowerDesigner PDM into Physical Data Models in IBM Rational Data Architect (RDA).

Databases, Tables, Columns, and other relational database objects are converted from PowerDesigner PDM to Physical Data Models for RDA with their properties and documentation, and the layout of the Data Models from PowerDesigner PDM is maintained in the Physical Data Model diagrams for RDA.

**Interface Technology:** The PowerDesigner PDM Importer for Rational Data Architect parses the PDM files from PowerDesigner, and it uses the Eclipse Modeling Framework (EMF) to create Physical Data Models in IBM Rational Data Architect (.dbm files).

**Platform:** The PowerDesigner PDM Importer for Rational Data Architect supports Sybase PowerDesigner 12.0, 12.5 and 15.0, and IBM Rational Data Architect 7.0 and 7.5.
