Data Sheet

(effective December 2006)

The TOOLBUS™: Borland® Together® XMI File Importer for Rational® Software Modeler enables the import of

- UML Activity Diagrams,
- UML Class Diagrams,
- UML Collaboration Diagrams,
- UML Component Diagrams,
- UML Deployment Diagrams,
- UML Sequence Diagrams,
- UML State Diagrams, and
- UML Use Case Diagrams

from Borland Together 6 into the IBM Rational Software Modeler (RSM), Rational Software Architect (RSA), and Rational Systems Developer (RSD).

The layout of the UML diagrams from Together is maintained in the imported UML diagrams in RSM, RSA and RSD.

Interface Technology: The Borland Together XMI File Importer parses the XMI export files from Borland Together 6, and it uses the Eclipse Modeling Framework (EMF) to create UML models in IBM Rational Software Modeler, Rational Software Architect, and Rational Systems Developer.

Platform: The Borland Together XMI File Importer requires Microsoft Windows 2000/XP. It supports Borland Together 6.x and IBM Rational Software Modeler, Rational Software Architect and Rational Systems Developer versions 6.0.1 and 7.0.

Trademarks:

Borland and Together are trademarks of Borland Software Corporation in the United States, other countries, or both.
Rational is a trademark of International Business Machines Corporation in the United States, other countries, or both.
TOOLBUS is a trademark of Reischmann Informatik GmbH in the United States, other countries, or both.
